SUPER COMPACT FAN-ASSISTED PTC HEATER | 200W

DUAL POWER SUPPLY

Super compact and light weight fan assisted heaters. Self-regulating PTC element. Touch safe. Spring terminal.

IP Enclosures provide a wide range of heating products for electrical enclosures. Anti-condensation heaters are required to prevent failures or corrosion caused by low temperatures or high humidity inside the enclosure. This occurs when ambient temperature is low and the equipment does not generate enough heat to maintain the minimum internal temperature. IP Enclosures heating products are manufactured to the highest quality in Italy.
